BADMINTON

2024

YONEX PRODUCT CATALOG

FOUNDED IN TSUKAYAMA, NIIGATA, JAPAN. CHASING HIGHER PERFORMANCE THROUGH CRAFT AND INNOVATION SINCE 1946.

BEYOND WHAT I SEE

Years from now, this racquet will be lighter and stronger than you could ever picture.
Fully packed with new innovations.
All those innovations are bound to be discovered.
They're all hidden, impatiently waiting to be uncovered.

When I get my hands on this racquet, it will be the culmination of thousands of ideas, tried and failed. It will be standing proof, that endlessly testing both expected and unexpected ideas will mold the basis for game-changing performance.

But this racquet won't uncover itself

— not without a little imagination.

It's time I search beyond what I know today.

a head-light racquet built for power

SIGNATURE YONEX TECHNOLOGY SINCE 1980*

SWEET SPOT EXPANSION

ISOMETRIC™ technology was invented by Yonex to maximize the vital sweet spot area and is now a world-leading feature of our racquets. The square shaped head of the racquet means that there are more strings crossing at right angles, resulting in a bigger sweet spot. Yonex continues to develop and enhance ISOMETRIC™ power, reducing still further the 'inert' space around the edge of conventional racquets, creating a far bigger sweet spot than other frames.

ISOMETRIC™ is a trademark of Yonex Co., Ltd. *Tested by Yonex

^{*}Originally developed for tennis racquets, in 1992 Yonex released the first ISOMETRIC badminton racquet.

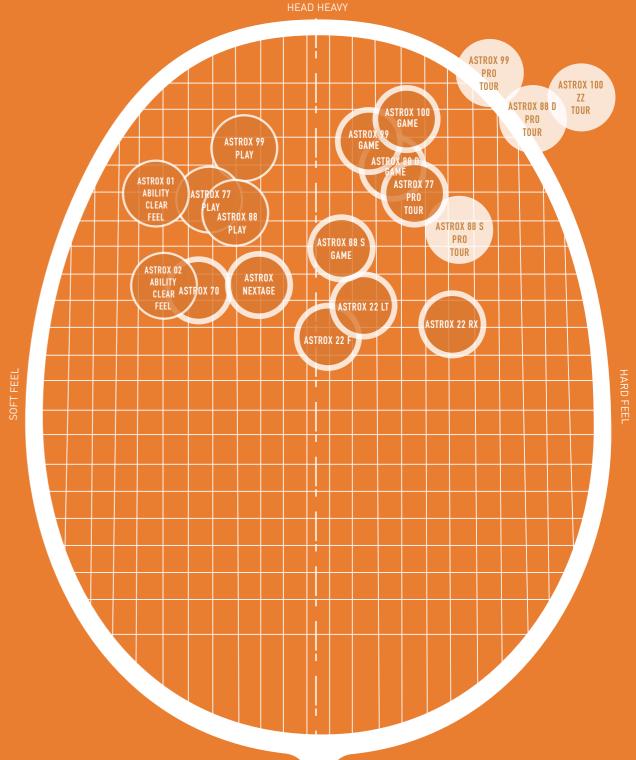

POWER

INITIATE A RELENTLESS ATTACK

The ASTROX series is developed to meet the demands of aggressive attacking play, taking the point to your opponent with relentless steep attacks.

The Rotational Generator System perfectly distributes weight through the grip end, frame top and the T-joint for maximum control, enabling smooth transition between shots, in a rapid succession. Revolutionary graphite materials such as Namd^{TM*} are utilized to create faster snapback for imposing power.

ATHLETE:

VIKTOR AXELSEN

AXELSEN

HOW OLD WERE YOU WHEN YOU STARTED PLAYING BADMINTON?

"When I was 6 years old. My father introduced me to the game!"

HOW DID YOU FEEL WHEN YOU STARTED PLAYING BADMINTON?

"I felt amazing playing badminton. I loved being alone on court and being responsible for my own wins and losses."

WHAT DO YOU LIKE ABOUT BADMINTON NOW?

"I love seeing how far I have come and I try my best to reach my fullest potential. It's a wonderful journey and I learn something new about myself all the time!"

WHAT IS YOUR BIGGEST GOAL RIGHT NOW?

"My biggest goal is winning another Olympic Gold medal in the 2024 Olympics. I'm trying my best to stay healthy and be in shape!"

ACCURACY

MASTER OF PRECISION

The acclaimed ARCSABER series designed for control is reimagined with emphasized shuttlepocketing for a controlled offense and one-of-a-kind feel at impact.

Taking control of the court can come in all different forms. For the ARCSABER, that comes from the extra few milliseconds of shuttle contact time allowing assertive shot-making. Combine that with the stability of the enhanced ARCSABER frame, and you gain the confidence to command the court.

SPEED

MAXIMUM SHUTTLE ACCELERATION

Engineered to improve swing speed and maneuverability, the NANOFLARE is the only head-light racquet proven to provide unrivaled power and increased shuttle acceleration.

The difference is in the technology – built for speed, the NANOFLARE, is constructed with the SONIC FLARE SYSTEM which strategically lines high modulus graphite material at the top and bottom of the frame for amplified repulsion performance.

BEYOND WHAT I SEE.

K. Stwik Sin Rij

ATHLETE:

SATWIKSAIRAJ RANKIREDDY

HOW OLD WERE YOU WHEN YOU STARTED PLAYING BADMINTON?

"I was 7 years old."

HOW DID YOU FEEL WHEN YOU STARTED PLAYING BADMINTON?

"I started as a kid as a physical activity and it later became a professional thing for me. As a kid, what I enjoyed was to be with friends and play."

WHAT DO YOU LIKE ABOUT BADMINTON NOW?

'I just love playing badminton, there are no words to describe it."

WHAT IS YOUR BIGGEST GOAL RIGHT NOW?

"To be on the Podium at the Paris Olympics."

ATHLETE: **CHIRAG SHETTY**

HOW OLD WERE YOU WHEN YOU STARTED PLAYING BADMINTON?

"I started playing badminton at the age of 7."

HOW DID YOU FEEL WHEN YOU STARTED PLAYING BADMINTON?

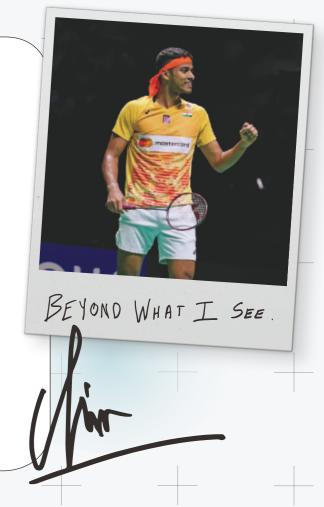

"I genuinely loved playing the sport as it gave me the opportunity to express myself in the best way possible."

WHAT DO YOU LIKE ABOUT BADMINTON NOW?

"The best thing about badminton is that it is one of the fastest sports in the world and hence really fun to watch."

WHAT IS YOUR BIGGEST GOAL RIGHT NOW?

"My biggest goal right now is to hopefully come back with a medal from the Olympic Games in Paris."

NANOSCIENCE

NANOSCIENCE technology allows Yonex to alter the structure of materials in a racquet to enhance the STRENGTH, FLEX and POWER.

A next-generation highly strong, yet elastic carbon fiber developed by Toray Industries, Inc. (TORAYCA™ M40X is developed by Toray Industries, Inc.)

Namd™

A world-first, new dimension graphite material, Namd™, produces more flex with a faster snapback, unleashing dramatic power. (Namd™ is a technology developed by Nitta Co., Ltd.)

2G-Namd™ FLEX FORCE

New graphite characterized by its quick flex and snapback. The Carbon Nanotube binding the graphite together reduces energy loss and enhances its resilience.

NANOCELL NEO

A resilient yet surprisingly flexible graphite material providing increased power.

NANOMESH NEO

Ensures a stronger more flexible frame, while increased shaft flex creates maximum power.

2G-NANOMESH NEO

Characterized by its quick flex and snapback, maximizes

NANOMETRIC

Tightly bonded fibers enhance the racquet's strength and minimize twisting during impact. NANOMETRIC is a material which applies the NANOALLOY™ technology of Toray Industries, Inc.

NANOMETRIC DR

An enhanced graphite based on unique NANOSCIENCE technology for a firm shuttle hold creating maximum repulsion.

X-FULLERENE

Used in the resin which bonds the carbon fibers, resulting in a tenfold increase in binding force which makes it possible to create 5% higher repulsion power and 15% greater stability than conventional graphite.

MATERIAL HIGHLIGHTS -

BLACK MICRO CORE

 $\label{lem:continuous} A \ stiff, \ high-density \ vibration-dampening \ material \ featured$ in the upper half of the frame, allowing players to hit with a

FLEX FUSE

The shock absorbing resin used in the joint creates $\mbox{\ensuremath{a}}$ comfortable hitting feel.

HYPER-MG / EX-HMG / SUPER HMG

These ultra-elastic materials produce sharper power for

LIGHT FEEL CARBON NEO

The additional rubber creates a lighter feel and increased flex for greater head speed.

POCKETING BOOSTER

A proprietary rubber-like material emphasizing elasticity in the frame's flex.

REXIL FIBER

Increases repulsion power to the shuttle while minimizing shock at impact

T-ANCHOR

Increases stiffness for quicker racquet recovery into the

TUNGSTEN

A metal with a high tensile strength.

VDM (VIBRATION DAMPENING MESH)

Vibration dampening material is a stretchy mesh rolled with the graphite to greatly reduce unwanted vibrations.

FRAME

AFRO FRAME

Cuts air resistance for faster swing speeds and increased maneuverability.

AERO+BOX FRAME A combination of faster swing speeds and a solid feel.

ROX FRAME

The extra stiff profile provides a solid stable feel on impact with the shuttle.

COMPACT FRAME Reduced air resistance and improved feel with the shuttle.

CONTROL-ASSIST BUMPER The CONTROL-ASSIST BUMPER attached at the top contains T-ANCHOR, micro-sized tetrapods that help lock

in vertical strings for improved accuracy. DUAL OPTIMUM SYSTEM

Two contrasting racquet profiles in one unique Dual Dynamic Design allow players to enhance both their forehand and backhand

DUORA GROMMET DESIGN

8 linked grommets made with differing thickness on either side of the frame. The stiffer AERO side grommets pull the string harder for increased power.

DURA FRAME

Provides aluminum frames with greater strength and a

ENHANCED ARCSABER FRAME

Control with confidence through this unique frame structure with varying levels of flex from top, sides, to bottom, built to increase shuttle hold while reducing instability and twisting at impact.

EXPANDED SWEET SPOT FOR CONTROL

The tailored 5mm longer racquet length enables fast maneuverability, while the expansion of the sweet spot area by optimizing the frame design increases precision Supports fast rallies and secures points from front court

FRAME DEDICATED TO DRIVES

The steep angle from the stringing area to the T-joint at the bottom of the frame, increases rigidity and enhances repulsion, enabling powerful drives that take the opponent by surprise

HORIZONTAL-A CONCEPT Larger sweet spot at the top of the frame in a compact

head design

MUSCLE POWER FRAME Smoother grommets reduce string stress for greater

durability. POWER-ASSIST BUMPER

Boosted power with a tungsten-infused weighted bumper, adding 55%* more weight than conventional grommets The POWER-ASSIST BUMPER enhances the Rotational Generator System, quickly transferring more weight to the shuttle.

*Measured by Yonex

ROTATIONAL GENERATOR SYSTEM

By applying the counterbalance theory, weight is distributed throughout the grip end, frame top and the joint for maximum control. The transition to the next shot can be performed smoothly with a rapid succession.

SOLID FEEL CORE

Reduces vibrations traveling down the shaft for improved

SONIC FLARE SYSTEM

Carefully selected high modulus graphite are strategically placed across the bottom of the frame to provide unrivalled power and stability for maximum shuttle acceleration.

SPEED-ASSIST BUMPER

The connected grommet at the bottom of the frame amplifies shuttle repulsion. The high strength titanate material mixed into the bumper reinforces the frame and limits deformation, generating a higher initial launch remove speed.

STABILITY WEIGHT DISTRIBUTION

enhances stability during the swing, resulting in maximized smash power. And allowing for the effective breakdown of defenses during back-court attacks.

STRINGING PATTERN FOR ENHANCED REPULSION

String density increases by adding an extra cross string, boosting surface pressure and creating enhanced repulsion for accelerated drives.

VERTICAL - A CONCEPT

Vertical grommets provide greater flex in the string bed and a wider sweet spot.

WIDE DIAMETER GROMMETS

Control the shuttle-release timing with larger grommets designed for more string movement, extending the shuttle

JOINT

SHAFT REXIS SHAFT

BUILT-IN T-JOINT

Increases strength between the frame and shaft eliminating head twist for more control.

A high-performance shaft precisely designed with

performance and dominates the game.

an original Yonex molding technique. Improves shot

NEW BUILT-IN T-JOINT

The lightweight T-Joint increases stability of the shuttle on the strings, maximizing power and control

HYPER / EXTRA / ULTRA / SUPER SLIM SHAFTS

Designed to slice through the air, generating speedy power.

Lightweight fibers that withstand immense forces while absorbing unwanted shock and vibrations.

CAP

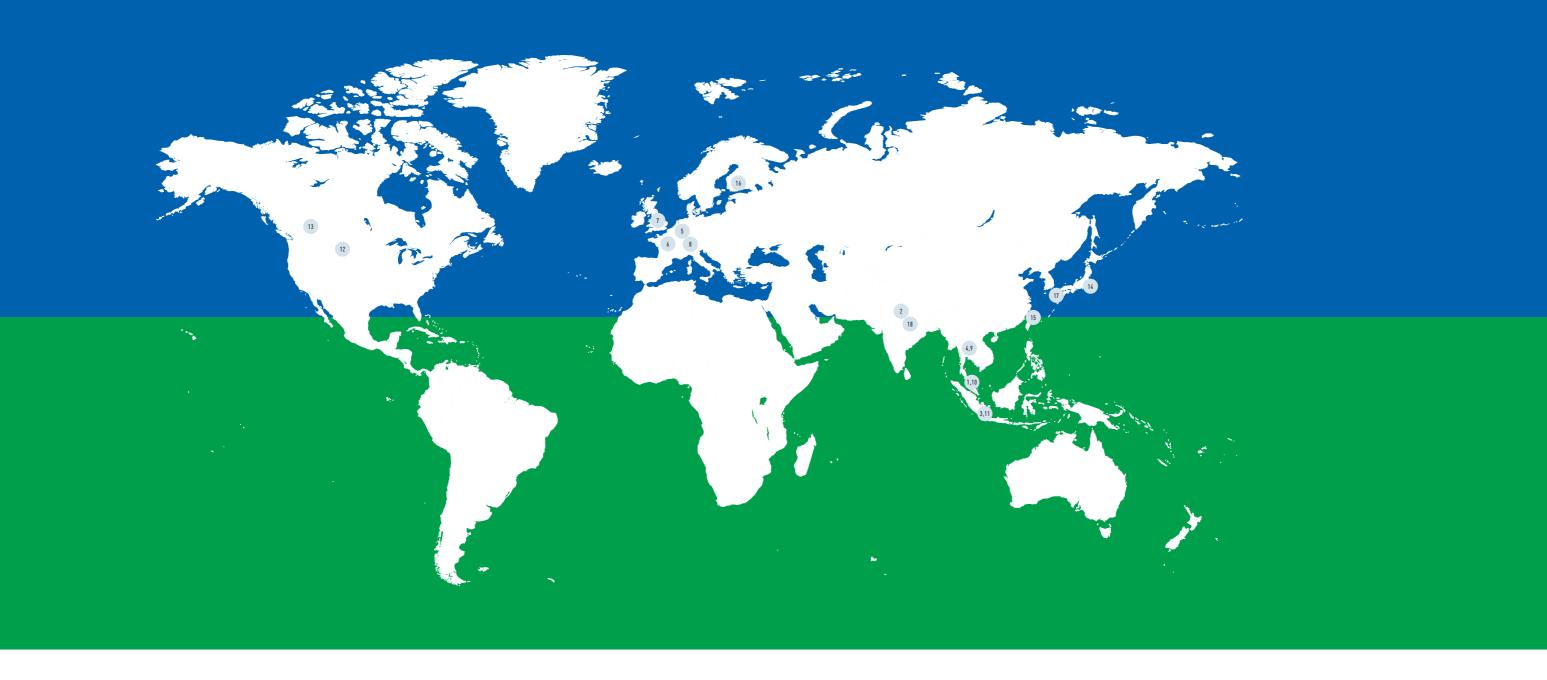

CONTROL SUPPORT CAP

Wider, flatter surface improves grip for increased racquet

ENERGY BOOST CAP / PLUS

Uniquely shaped cap which maximizes shaft performance. The front allows the shaft to flex, while the sides arch shaft from twisting

shaped curve stabilizes the racquet face by preventing the

TECHNOLOGY

OVAL FORGED FIBER

Limits deformation of the fiber at impact for maximum transmission of

VECTRAN™

Stretch resistant Super Fiber: more than twice as strong as nylon.

BRAIDED STRUCTURE

Braided threads around the main core thread create a robust string structure, allowing it to swiftly return back to its original position after impact for more power and repulsion on the shuttlecock.

FORGED FIBER has strong molecular bonds which result in 1.5 times higher

heat resistance than general nylon.

Achieves greater flight with high resilience and provides a soft hitting

COMPACT FILLED STRUCTURE

Reduce power loss and improve strength by filling the gaps fully with

COATING

ELASTICITY DIITER

The Elasticity Outer is a coating with enhanced flexibility achieved by applying NANOALLOY technology to nylon. The result is a combination of quick repulsion, durability, and control.

CUP-STACK CARBON NANOTUBE

Advanced construction minimizes notching of the string at the intersections, for greater durability and high repulsion power.

POLYHRETHANE COATING

This tacky coating provides increased hold on the shuttlecock providing more bite on shuttlecock at the moment of impact for improved control.

SPECIAL NYLON COATING

Coating combined with highly flexible material at high speed deformation. Bites the shuttle at impact, showing great control and power.

COMPOUND TITANIUM HYDRIDE

Compound titanium hydride coating provides not only a sharp feel at impact but increased durability.

STRINGS | DURABILITY 67 SPECIFICATION | STRINGS

CRAFTING EVERY SWEET SPOT

The Yonex Stringing Team is a global network of over 1,500 world-class stringers who are skilled in crafting the perfect sweet spot to meet every player's demands.

Equipped with state-of-the-art stringing machines that protect the integrity of every frame, these stringers are experts in optimizing every racquet's performance. Each string is pulled and knotted with precision to ensure that players can rely on the consistency required to come out on top. The Yonex Stringing Team comes together to the tournament to provide their deep knowledge of equipment and expert dexterity for players to compete and the highest level of badminton.

In addition to BWF tournaments like BWF World Championships and YONEX All England Open, Yonex will provide the stringing machine and stringing service for Olympic and Paralympic Games Paris 2024 Badminton Competition.

68

STRINGING MACHINES

PRECISION 9.0

Premium electronic tennis, badminton, and soft tennis stringing machine

SIZE Approx. 1,070mm (W) x 660mm (D) x 1,070mm - 1,370mm (H)

WEIGHT Approx. 73 kg / 161 lbs

PULL SPEED 9 speeds

10-88 lbs (0.5 increments); 4.4-39.4 kg (0.2 increments + 5) TENSION RANGE

PRE-STRETCH 1-20% (1% increments)

ITEM CODE SPR90W

Made in Japan

FEATURES

USER-FRIENDLY: STRINGING ENVIRONMENT

A control panel with angle, brightness, and sound adjustments, along with a USB charging port, creates a comfortable stringing environment.

EFFICIENT: MOUNTING SYSTEM

Lower racquet posts and a compact turntable combine to allow for smoother stringing, while improved gripping on the clamps results in less damage to the string.

69 | STRINGING MACHINES

PRECISION 8.0

Electronic tennis, badminton, and soft tennis stringing machine

SIZE Approx. 1,070mm (W) x 640mm (D) x 1,110-1,360mm (H)

WEIGHT Approx. 54 kg / 119 lbs

PULL SPEED 9 speed

TENSION RANGE 10-88 lbs (0.5 increments); 4.4-39.4 kg (0.2 increments + 5)

PRE-STRETCH 1-20 (1% increments)

ITEM CODE SPR80W

Made in Japan

FEATURES

PRECISE: CLAMP

Precision 8.0 features an upgraded clamp, with a thinner, shorter, and more ergonomic design.

The new clamp design prevents clamps from overlapping and allows stringers to clamp closer to the racquet frame when tensioning.

EFFICIENT: CLAMP BASE

Designed with a larger button for easy unlocking, improving stringing speed and efficiency.

ADJUSTMENT: MAIN POST

Height adjustment range: 250mm.

The main post can be manually adjusted to allow for smooth height adjustment.

STABILITY: MACHINE BASE

The stability got improved by the enlarged base to expand the installation area and the low center of gravity.

PRECISION 5.0

Electronic tennis, badminton, and soft tennis stringing machine

SIZE Approx. 1,167mm (W) x 685mm (D) x 1,064-1,242mm (H)

WEIGHT Approx. 75 kg / 165 lbs

PULL SPEED 3 speeds

TENSION RANGE 11-82 lbs (0.5 increments); 5-37 kg (0.2 increments)

PRE-STRETCH 0, 5, 10, 15, 20% **ITEM CODE** SPR50W

FEATURES

EFFICIENT: RACQUET FRAME SUPPORTS

The frame supports are easily adjustable with a one-click sliding functionality and head-size guides.

USER-FRIENDLY: CONTROL PANEL

Optimized for efficiency, the control panel is designed with large buttons for easy accessibility and improves accuracy. It features a USB port on the side for convenient charging.

PRECISE: DISC BRAKE SYSTEM

A first for stringing machines, the PRECISION 5.0 turntable features a braking system utilized in cars and aircraft that enables quick reactions for improved accuracy.

ORGANIZED: TOOL TRAYS

Keep your tools organized with two tool trays - one tucks away below the control panel, and the second is located on the side of the machine.

STRINGING MACHINES | 70 | STRINGING MACHINES

PRECISION 3.0

Specialized badminton stringing machine

SIZE Approx. 1,036mm (W) x 459mm (D) x 1,080-1,280mm (H)

Approx. 58 kg / 128 lbs WEIGHT

PULL SPEED

11-46 lbs (0.5 increments); 5-21 kg (0.2 increments) **TENSION RANGE**

0.5, 10, 15% PRE-STRETCH

SPR30B ITEM CODE

FEATURES

EFFICIENT: TURNTABLE

Rigid stainless-steel arms reduce damage to the racquet frame. Compact turntable allows for smoother stringing process.

PRECISE: CLAMP

Crafted to grip the finest and softest strings, these clamps prevent loosening, creating efficient workflow. Their lightweight design minimizes fatigue during the long stringing process.

USER-FRIENDLY: CONTROL PANEL

It offers a wide range of tension settings, with user-friendly button layout and highly visible LED display for improved work efficiency.

ORGANIZED: TOOL TRAY

A wide tool tray stowed underneath to create a well-organized workspace.

SWING WEIGHT MACHINE

PRECISION SCAN

Electronic tennis, badminton, and soft tennis weight and balance machine

SIZE Approx. 700mm (W) x 453mm (D) x 283mm (H)

WEIGHT Approx. 15 kg/33 lbs

ITEM CODE SPRSC

FEATURES

Precisely scan the total weight and balance of racquets by placing the racquet on the machine with a touch of a button.

QUICK SCAN: COMPUTER UNIT

The computer unit will provide the total weight, balance, swing weight, and performance

Performance swing weight is a Yonex-exclusive measurement - more accurate than normal swing weight - and is calculated by using the values of the total weight, racquet balance, and swing weight.

ACCURATE: COVER, BAR, RING

The acrylic cover protects the machine's three main sensors while not in use. A calibration bar and calibration ring is provided to ensure the machine gives accurate swing weight measurements.

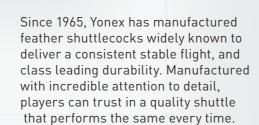

STRINGING MACHINES | 72 73 SWING WEIGHT MACHINE

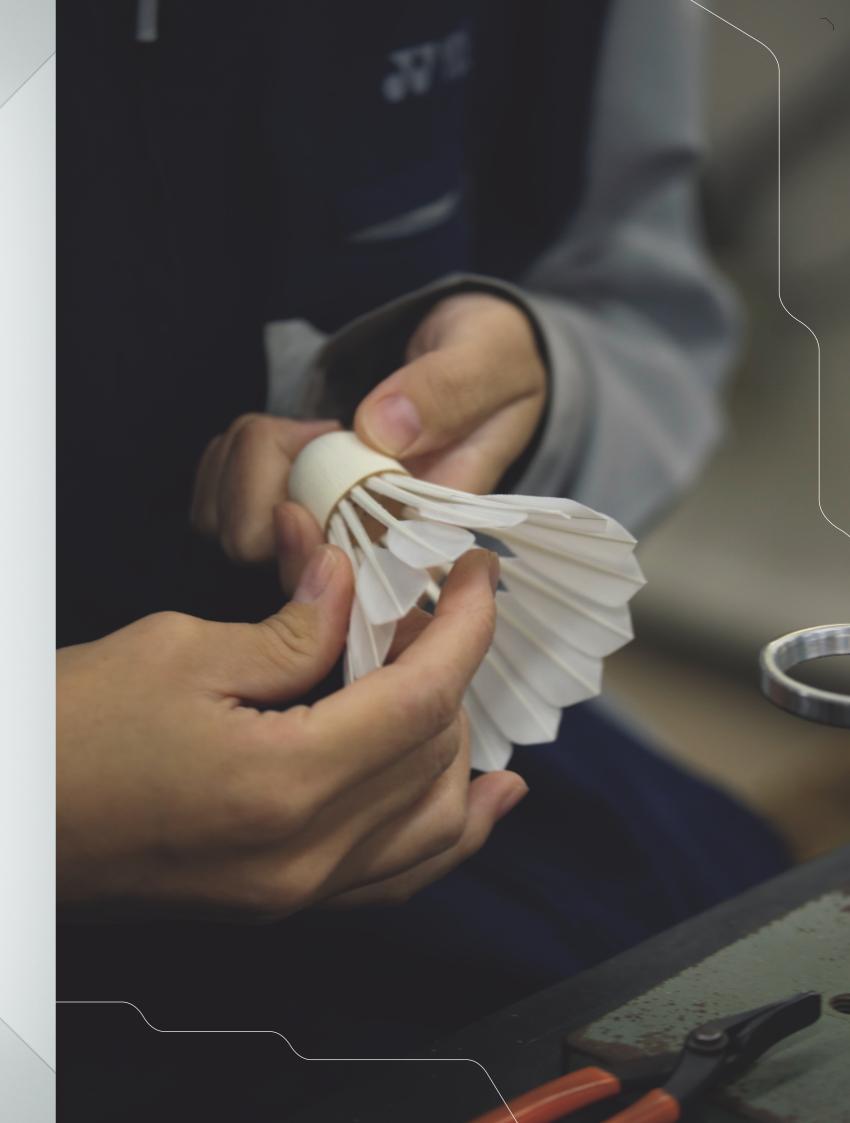

SHUTTLECOCKS

"PRECISION FLIGHT."

In addition to BWF Major events and other leading tournaments, Yonex will provide shuttlecocks for Olympic and Paralympic Games Paris 2024 Badminton Competition.

FEATHER SHUTTLECOCKS

Yonex has been meticulously hand-crafting the best feather shuttlecocks in the world since 1965. Each of our shuttles is assembled by a team of expert craftsmen using the finest materials. They are then individually tested to make sure they deliver consistent flight trajectory, accuracy and distance at all temperatures. That's why the best players and the biggest tournaments in the world choose Yonex shuttlecocks.

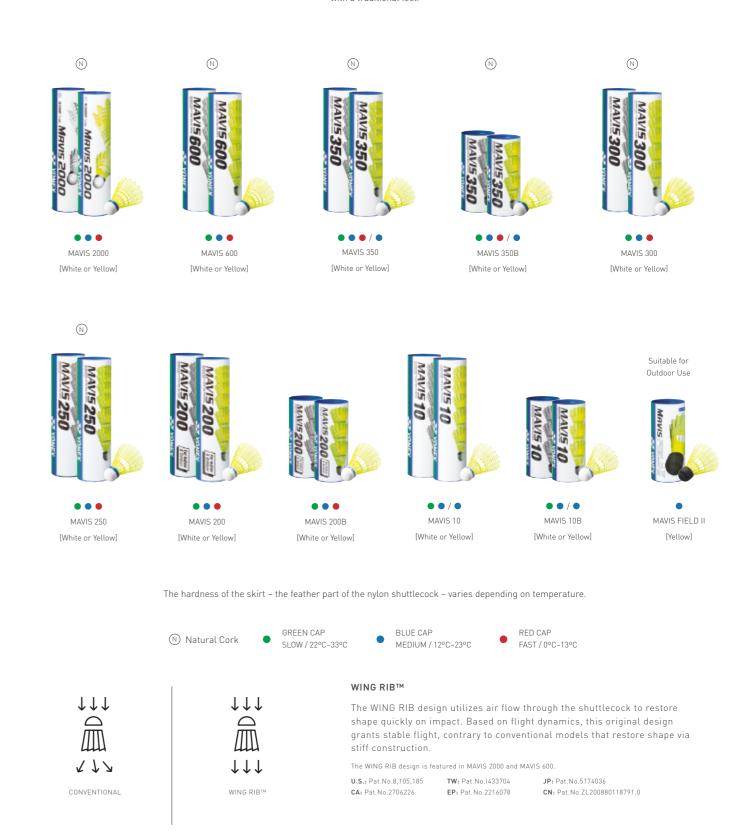

^{*}Shuttlecock performance can vary by altitude, so please consult with your local retailer or distributor.

NYLON SHUTTLECOCKS

Outdoor or indoor, Yonex precision MAVIS nylon shuttlecocks are the closest you can get to a traditional feather.

Designed to have the same flight time as a feather shuttle, they give an accurate and durable performance with a traditional feel.

SHOES

"AGILITY ON COURT."

Badminton footwork is unique. The combination of high impact levels with aggressive changes in both direction and pace will require demanding footwear constructs. With the proprietary POWER CUSHION material as the foundation, Yonex badminton footwear will convert the high impact energy into power for the next step. Agility, durability, comfort, or simply an all-around shoe, the Yonex shoe line-up will give you that extra kick you are looking for in your footwork.

MEN

WOMEN

COLOR: DARK RED (MEN), BLACK / MINT (WOMEN)

STABILITY

RADIAL BLADE SOLE

Designed for confidence in directional change. A new sole pattern increasing traction in vertical, horizontal and diagonal movements.

SEMI ONE-PIECE SOLE

Toe and heel rubber soles combined into a singular piece for improved stability, and for more traction through additional surface area.

REINFORCEMENT

To reduce lateral shake and improve stability, the hardened shell like portion, LATERAL SHELL, is applied to support the most burdened part and reinforced parts on the outer midfoot to the heel.

MEN

ATHLETE:

AN SE YOUNG

MI

HOW OLD WERE YOU WHEN YOU STARTED PLAYING BADMINTON?

"When I was in the first grade, I naturally started playing badminton following my parents who enjoyed daily sports."

HOW DID YOU FEEL WHEN YOU STARTED PLAYING BADMINTON?

"It was big fun and thrilling for me to hit the shuttlecock as the rally goes."

WHAT DO YOU LIKE ABOUT BADMINTON NOW?

"Badminton is my favorite sport. Badminton is said to be the fastest ball game, but I feel proud and thrilled when receiving those difficult and fast balls."

WHAT IS YOUR BIGGEST GOAL RIGHT NOW?

"My goal is to win a gold medal in every competition. But it is also my goal that I enjoy playing badminton, which is the sport I love."

LIGHTWEIGHT

Our lightest shoe ever. Get to the shuttle quicker in this lightweight-but-durable shoe.

msLITE X

msLITE X is Yonex's lightest midsole material and is one of the key technologies in making the AERUS Z lighter while providing smooth, fluid footwork.

SEAMLESS UPPER

The seamless upper design is reinforced with wear resistance material and film in each area to achieve lightweight, high breathability and support. It maintains comfort even if you play for long time.

85 LIGHTWEIGHT | SHOES

The perfect combination of cushioning, stability and lightness.

Yonex's lightest shoe at 240g * for faster footwork with power and cushioning

*Men's size 26.0cm

APPAREL

"BUILT FOR ON-COURT CONDITIONS."

We are driven by the passion for higher on-court performance. From head, to toe.

Racquets, to apparel, to footwear.

Every inch counts.
Every gram makes a difference.
Every thread matters.

Each of the instruments we make is intelligently designed to help you perform your best.

If you are as serious about your game as we are, then Yonex Apparel Innovations is here to help take you to the next level.

TOURNAMENT

PRACTICE

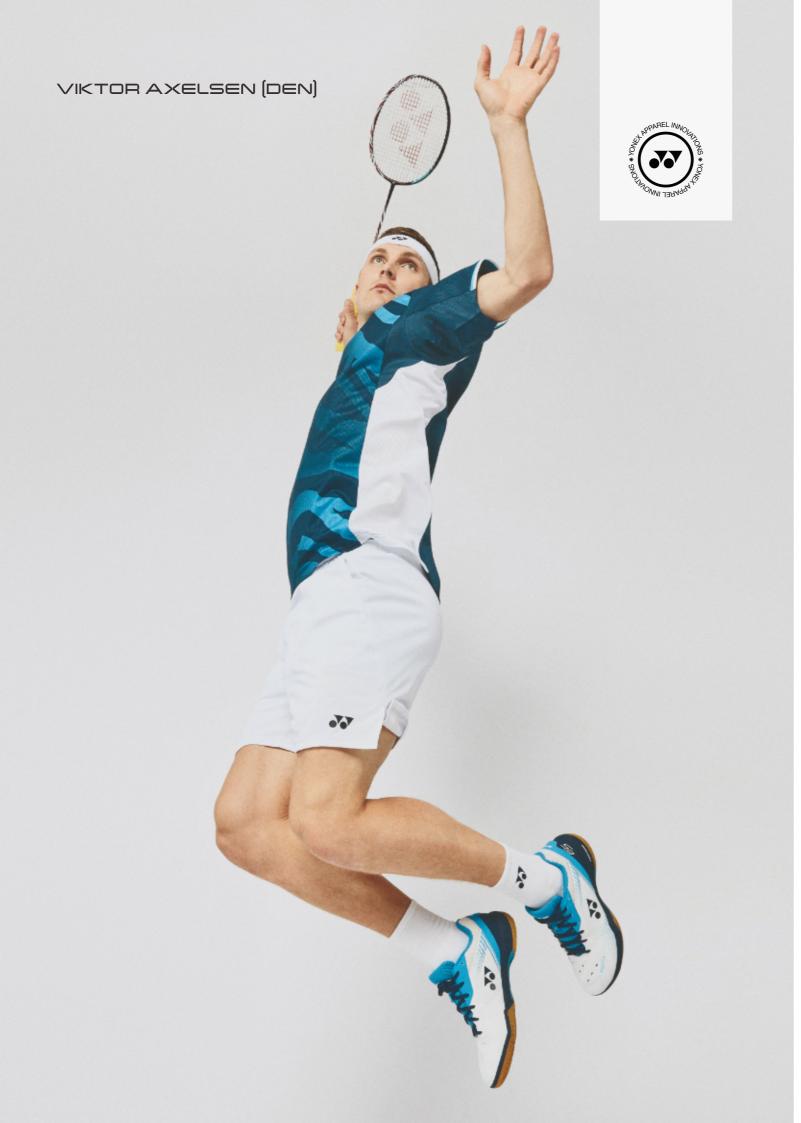

NATURE

TEAM

APPAREL TECHNOLOGY

VERYCOOL DRY

KEEP COOL, DRY AND ON TOP OF YOUR GAME

A special hydrophobic fiber moves moisture from the skin to the fabric's surface. Along with its quick drying property, VERYCOOL DRY keeps you cool and dry at all times.

VERYCOOL

A COOL WAY TO BEAT THE HEAT

By using cooling material Xylitol, VERYCOOL clothing from Yonex absorbs heat and perspiration, providing a significant cooling effect during exercise. No matter what the ambient temperature, VERYCOOL lowers body heat by 3°C for cooler play*.

*Data from Unitika Garments Technology & Research Laboratories Ltd

PRECISION MOVE

EASY TO MOVE

Yonex special cutting provides to maximize your performance, reduce stress on arm swing, quick and smooth step.

ANTISTATIC

AVOID THE DISCOMFORT OF STATIC ELECTRICITY

Carbon impregnated conductive fibers are woven into the clothing

UV REDUCTION

OUTSTANDING ULTRAVIOLET INTERCEPTION

Yonex clothing intercepts infrared radiation and approximately 92%* of ultraviolet, minimizing heat build-up during play.

*Tested by BOKEN QUALITY EVALUATION INSTITUTE.

STRETCH

FLEXIBLE, FORGIVING AND FASHIONABLE

to remove static electricity build-up.

Innovative stretch material allows for free movement that supports your active play.

SWEAT ABSORBENT AND QUICK DRYING

STAY DRY AND LIGHT

Fabric that wicks away moisture and keeps you dry.

AIR RELEASE

SUPERIOR COMFORT IN THE HEAT

As warm air rises, cold air enters into open areas. Based on this fact, new Yonex Air Release technology has greatly improved ventilation in our shirts. Mesh in the back of the neck provides high ventilation, pushing out body heat. Meanwhile, fresh air is taken in through mesh equipped on the side of the shirt from the bottom to the armpits, keeping you cool under severe heat.

ANTIBACTERIAL AND DEODORANT

PROTECT AGAINST BACTERIA

Protects against bacteria and reduces unpleasant odours.

POLYGIENE

STAY FRESH AND ODOR-FREE

Woven into the fabric, this odor control tech keeps you fresh and odor-free even after intense play.

3D ERGO

SUPPORT YOUR ONE STEP FORWARD

Designed to relieve pressure on the toes and support their stepping force. It wraps the entire foot with moderate pressure, eliminating sock loosening in shoe.

As an industry leader, we use our unique innovations to create new sustainable solutions for the environment and our customers around the world.

ATHLETE:

LUCAS MAZUR

BEYOND WHAT I SEE LUCAS

HOW OLD WERE YOU WHEN YOU STARTED PLAYING BADMINTON?

"When I was 12 years old at school and I immediately liked it."

HOW DID YOU FEEL WHEN YOU STARTED PLAYING BADMINTON?

"Back then I was also playing rugby but I liked that badminton was an individual sport, which felt like a dual to me. The first individual sport I encountered was badminton, and I never stopped ever since."

WHAT DO YOU LIKE ABOUT BADMINTON NOW?

"I love the sport of dueling, especially the mental aspect but also the tactical aspect in this sport. The game with the opponent, the looks, the encouragement, being able to read his game like in a chess game."

WHAT IS YOUR BIGGEST GOAL RIGHT NOW?

"I hope to make a double history by winning at both Tokyo 2020 and Paris 2024, which would be my greatest wish as an athlete."

ACCESSORIES

"PREPARE FOR PERFORMANCE."

The connection between your hand and the racquet is often overlooked but can make the biggest difference.

Yonex designs a range of overgrips to fit every player's preference. From Wet Super Grap - Yonex's most popular overgrip that has been sold enough to wrap around the world five times - to Dry Super Grap, which wicks away moisture and provides a dry feeling even in humid conditions, every Yonex overgrip is designed to make the connection between your hand and your racquet one you can trust.

ACCESSORIES / OVERGRIPS

WET SUPER GRAP

Tacky feel

Since its launch in 1987, the Wet Super Grap has become Yonex's best-selling overgrip, having sold enough grips to wrap five times around the earth.

BADMINTON ANADA VISION OF THE BADMINTON ALBERTA

"TOGETHER,
WE HAVE
THIS UNIQUE
OPPORTUNITY
TO PROMOTE
BADMINTON GLOBALLY
WITH THE AIM OF MAKING

LEE CHONG WEI (MAS)

IT EVEN MORE POPULAR"

The Legends' Vision initiative brings together superstars from past and present with a mission of introducing badminton to new audiences and igniting a lifelong passion for the sport. Founded by Lee Chong Wei, Lin Dan, Peter Gade, Taufik Hidayat and Lee Yong Dae, this World Tour offers fans the opportunity to be inspired by The Legends at coaching clinics, Q&A talks and exhibition matches.

Through interactive events that get people excited about the sport of badminton, the Legends' Vision leaves a lasting legacy in every country it visits. Since the Legends' Vision tour began in 2015, its success in attracting new badminton fans from all corners of the globe has been unparalleled, and we hope that this will continue to grow as we add more events to the tour in the very near future.

In our most recent installment, the Legends' Vision World Tour swept through three major Canadian cities, leaving an indelible mark on the country's badminton landscape. Toronto, Vancouver, and Calgary played host to these impactful events, bringing together badminton legends from around the world for a mesmerizing display of skill and junior growth.

To learn more about this initiative, head to Legends.Yonex.com.

YONEX RECOMMENDED STRINGING INSTRUCTIONS

MAIN START

CROSS START

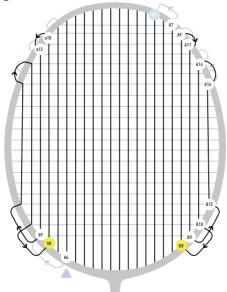

b8 MAIN TIE OFF

A5 CROSS TIE OFF

Start from top center, keep on stringing until B9 (skip A7, A9 & A11). Go through B12, directly to A16, and then straight to A14, down to B10 and tie off at B8. (Opposite side: the same procedure).

Make a knot at B6 and start crosses from B9. Keep on stringing until A7 (skip A12 &A10), then directly to A5 and tie off

3D Power Graphite Sheet

Provides stability under the center of the foot and reduces shoe twist.

Power Graphite Drive

A graphite sheet is inserted along the sole for increased stability and to propel you forward to the next shot.

Power Graphite Lite

Improved stability and reduced twist on landing.

Power Graphite Sheet Inserted in the midsole, the lightweight graphite sheet provides improved stability.

UPPER:

Improves shape retention, durability and heat-resistance.

A seamless construction offers natural comfort with an improved fit, eliminating discomfort from material friction.

Double Raschel Mesh

Highly breathable mesh for maximum ventilation.

Prevents foot movement at the edge of the sole for reduced power loss, allowing for fluid and aggressive

The center of gravity is shifted to the large toe – for a comfortable fit and more speed.

Reduces pressure on the big toe while improving support at the mid-foot and heel for increased stability. Power loss is reduced for swift footwork.

Asymmetrical design with a curved eyelet creates a natural snug fit around the inner arch. Stress gets absorbed through the toes and instep for a more comfortable fit.

A flexible material from the metatarsal to the heel that produces a more gentle fit.

SOLE:

Lightweight sole material that provides greater grip for agile stable footwork.

By improving shock absorption, our POWER CUSHION technology is designed for faster footwork that transforms impact into energy.

A lightweight, impact-absorbing material developed independently by Yonex which quickly returns to its original shape after receiving a shock load, converting the shock energy into

Round Sole For quick and smooth footwork ensuring maximum energy transfer into the next shot.

Radial Blade Sole

Designed for confidence in directional change. A proprietary sole pattern increasing traction in vertical, horizontal and diagonal movements.

Toe and heel rubber soles combined into a singular piece for improved stability, and for more traction through additional surface area.

MIDSOLE:

ToughBrid Light
Provides cushioning, shape retention and high elasticity whilst
reducing shoe weight.

A lightweight cushioning material designed to provide an added bounce with each step.

The lightest midsole material in Yonex history, 30% lighter* than

Lightweight midsole that still maintains it shape.

Synchro-Fit InsoleReduces the gap between the foot and shoe with extra support around the heel, for maximum grip, comfort and performance.
